

Mariner's Weather Hazards Workshop

Hosted by the National Hurricane Center

SAVE THE DATE!

Virtual
Conference
March 15-17
2022

Key decision makers from maritime industries are invited to attend a 3-day virtual workshop which will highlight the uncertainty that goes into our forecasts and unveil upcoming new products and services.

There will be plenty of opportunity for direct feedback and open discussion. There will also be breakout sessions where the decision makers and forecasters can interact while going through the analysis and forecast processes.

Registration link is included in the email
